

As an X-M Radio listener, I benefit hugely from its service and was recently spared a violent end by listening to its weather service which warned me of pending danger ahead. had I not had that my motor home might have been destroyed and i might have lost my life.

I pay for this service and it should not be the purview of the NAB and its lobbyists to dictate to you or to me what I get to listen to for my money.

I respectfully urge you to reject the NAB petition 04-160 which would, i believe, limit my rights of free association and speech under the constitution. On the contrary you ought to champion more stations like XM Radio as a viable competitive alternative to the programming morass that is the product offered by many NAB members.
